SUMMARY

As a front-end developer,I have a solid foundation in HTML, CSS, and JavaScript, and I am eager to expand my knowledge and skills in the field. I am familiar with REST APIs, and have a basic understanding of version control tools like Git. Am familiar with Angular, React, TailwindCSS and TypeScript, and am committed to staying up-to-date with the latest industry trends and best practices.

While I may not have professional experience, I have worked on personal projects and completed online courses to hone my skills and gain practical experience. I have a passion for web development, and am excited to collaborate with others to create user-friendly and visually appealing websites and applications. I am a fast learner, detail-oriented, and dedicated to delivering high-quality work.

SKILLS

- Comfortable with HTML/CSS and JavaScript.
- Familiar with Front-End Frameworks like React, Tailwindcss or Angular.
- Experience with Git/GitHub for version control and collaboration.
- Knowledge of responsive design principles.
- Understanding of web accessibility standards and best practices.
- Proficiency in testing and debugging code.
- Collaborative and team-oriented mindset.
- Eager to continue learning and growing in the field.
